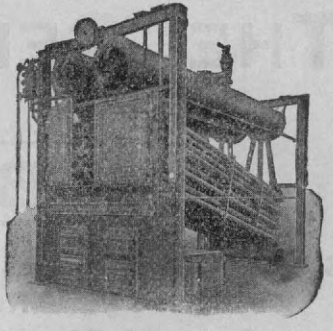
# THE IMPROVED ROOT WATER TUBE BOILER



is a sectional Water Tube Boiler of the highest grade, and unrivalled for fuel economy, easy steaming qualities, safety and low cost of repairs, with large capacity for overload.

All parts subject to wear and replacement are interchangeable and the boiler can, if so ordered, be made sectional to admit of transportation on mule back through mountainous regions.

# EXPANSION BOLTS AND ANCHORAGES FOR EVERY REQUIREMENT

**"DIAMOND N" Two Part Expansion Shields** have increased holding power on account of the corrugated ribbed exterior surface.

**DIAMOND SCREW ANCHOR;** new bulb slot pattern. With the roughened outside surface and extreme inner end expansion will hold where other fastenings will not and without danger of cracking the wall.

**DIAMOND TOGGLE BOLT**
An ordinary stove bolt nut is inserted in the slot as shown, and when bolt is inserted it is locked into the toggle head. This type of toggle bolt is recommended for its great strength.

# CARY'S UNIVERSAL BOX STRAP

THE STRAP WITH THE "NAME"
THE KIND IT PAYS TO HANDLE

OUR STRAPPING HAS ACQUIRED AN ENVIABLE FAME
AND WE DO OUR UTMOST TO UPHOLD ITS NAME

A Continuous Metal Strap with a series of raised bosses along the edges to strengthen same and protect nail heads.
Made in four widths—½, ⅝, ¾ and ONE INCH.
Put up in coils of 300 feet each, and packed 20 coils in a case.
On each coil we put our patent metal reel frame, making it a complete reel.
This Strap is made of extra soft annealed steel of great tensile strength, through which nails can be readily driven without first punching holes. The bosses stiffen the edge of the Strap and protect the nail heads when case is moved along the floor.

## 1161—Builders (Contracting)

(See also Contractors, General)

NOTE—The difficulty in separating Builders from Journeymen, especially in small towns where a man is a builder for one operation and returns to the bench when it is completed; and the fact that they are not generally rated, makes this a most unsatisfactory list to compile. Thorough revision has been made from the best sources obtainable and the list is as correct as such a line can be, considering the wide field covered. Brick or Mason Contractors have the word "Brick" or "Mason" following their names.

### Thirty-first Street and Penn Ave., PITTSBURG, PA.

### "McGillivray" Hydraulic Valves and "Robertson" Blow-Off Valves

BRASS AND BRONZE CASTINGS FOR RAILROADS, MILL AND GENERAL MACHINERY. CAPACITY, 500 000 LBS. A MONTH. SOLE MANUFACTURERS OF CORINTHIAN BRONZE FOR LOCOMOTIVES AND HOT MILLS.

SOLE MANUFACTURERS OF

### Lawrenceville Bronze Company Malleable Bronze

Tensile Strength, 61,000 lbs. Unequalled for Steam and Hydraulic Purposes.

THIS METAL is very dense, and is unequalled for Steam and Hydraulic purposes. It is also being used successfully for worm and Pinion Wheels. These are cast under pressure and are so accurate that milling is unnecessary. This Metal can be forged or Rolled. Sold in Ingots or Castings.

# *LADDER ELEVATORS*

For Stucco Work they are invaluable, for two of the elevators will support working platforms within easy reach of the building, without touching it. Painters and carpenters will also find them useful.

### *THEY SAVE MONEY!*

The cost of lumber for scaffolding, plus the price of labor for erecting same.

### *THEY SAVE TIME!*

Two men can erect scaffolds and be at work on them in ten minutes; they can raise or lower themselves without undoing any ropes, for the elevators lock automatically every foot.

### *THEY SAVE STRENGTH!*

The smaller platform carries material, tools, etc., within easy reach, so the workmen do not have to stoop every little while, which is the heaviest part of the work, besides taking considerable time.

### *THEY ARE ABSOLUTELY SAFE!*

They lock positively, steel elevator runways more than double strength of ladders, and there is nothing about them to get out of order. With ordinary care they will last a lifetime. Elevators can be run off and folded for shipment.

*IT WILL PAY YOU TO SEND FOR CIRCULAR "H"*

# EARNING POWER

Some machinery buyers never look beyond first cost. They live and buy in the present.

Wise buyers look ahead---and know that earning power is more important, in the long run, than price.

When you buy Ingersoll-Rand Air Power Appliances, as listed herewith, you buy machines built with an eye to the future.

They are not "low priced" machines, but **they have the earning power which makes them low cost machines.**

Which is more important---low price, or low cost?

# PROVED MERIT

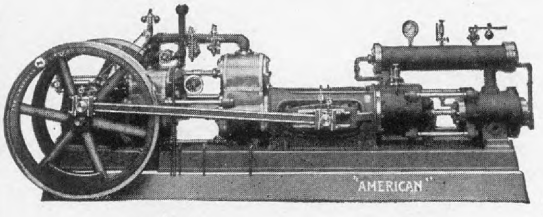
When a machine of the "American" line is purchased, there is no experimenting, as the merits of the machine have fully been proved.

### "American" Drilling Machines

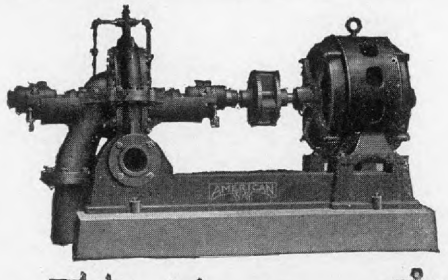
For sinking wells, deep blast hole drilling and mineral prospecting are made in 59 regular styles and sizes.

### "American" Air Compressors

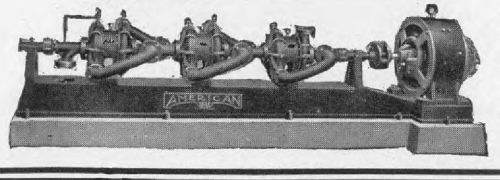
Made in a complete line of simple and compound machines in both horizontal and vertical types.



### "American" Centrifugal Pumps



Made in over 50 styles in any size, and equipped with any power.



### "American" Deep Well Pumps

Have been the world's standard of this type of pump for over forty years. Catalogue of any line on request.

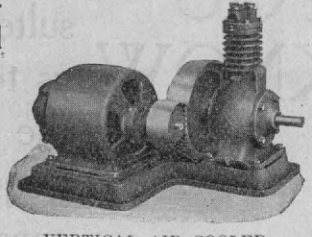
VERTICAL HIGH SPEED DUPLEX



# GARDNER AIR COMPRESSORS

Comprise a line of horizontal and vertical machines from the small air cooled 2 ft. capacity to the 800 ft. duplex type. Made in belt, steam and electrically driven styles. Our vertical high speed machines are of especial merit. Enclosed, self oiling and noiseless.

*Ask for descriptive literature of these most excellent machines.*

# "DALLETT" AIR COMPRESSORS

In design the most up-to-date machines in the compressor field. They embody not a single feature but what is up to the minute, judged by the highest standard of engineering practice.

In efficiency, economy and durability they are not equalled by any. Strong, rigid construction, large bearings, improved "Silent" inlet and discharge valves, thorough lubrication, easy access to all working parts —all leading up to the one thing—QUALITY.

***If you are thinking of installing a compressor, get our literature.***

## DO YOU NEED AIR?

### THERE IS A "SULLIVAN"

Compressor of just the type and size to meet **your** working conditions most efficiently and economically. Sullivan Compressors unite the most approved features of modern design, with a conservatism in ratings, an honesty in materials, and a thoroughness in details of construction which enable users to place full confidence in them, for every day service or for emergencies.

# National Air Compressors

Before you install an air compressor outfit, investigate the merits of National equipments—the kind that are used so extensively on electric traction railways and for general industrial service.

In the former field, alone, there are over 25,000 National outfits in every day use. Here they are subjected to exacting conditions—extreme heat and cold; mud and slush; unusual wear and tear—yet are giving very satisfactory service, operating for long periods without attention or repairs.

One reason for this is the 15 years' experience which finds expression in National air compressors.

Another reason is the great care we exercise in selecting those materials best suited for durability and hard service.

Still another reason is the importance we attach to making the seemingly secondary, yet equally vital details of design perfect and accurate in construction.

National outfits are compact simple units of the most improved types. Our line includes motor and belt driven air compressors for stationary service; also portable motor driven air compressor outfits.

# OUR PROPOSITION

We will put a MILWAUKEE MIXER on your work, use it for five days, give it the stiffest test that you know how, abuse it, don't oil it and if at the expiration of this time you are not fully convinced that it is superior to any mixer that you have ever seen or used, don't accept it; turn it down and we will pay freight both ways. Isn't that a Square Deal? No firm ever made, or can make, a more straightforward offer than this, as it will not cost you a cent if we fail to convince you of the superiority of the MILWAUKEE CONCRETE MIXER.

# THE MATHEWS GRAVITY CARRYING AND ELEVATING DEVICES

**BOX AND SHINGLE CARRIERS**—For conveying shingles and boxes rapidly and economically in loading cars, or moving from point to point in yard or factory. Sections and curves can be installed permanently or used as portable conveyor. Provided with switches for operating branch lines in conjunction with main lines.

**ROLLER CARRIER**—For conveying articles of various kinds and varying dimensions, such as cannot be handled on box carrier. Made with reversible curves and four and eight-foot straight sections.

**LUMBER CARRIER**—For conveying loose boards of any length from eighteen inches upward. Will also handle boards tied in bundles, cross arms, box shooks, wagon stock and dimension stuff. The only successful device made.

**BRICK CARRIER**—For handling brick, cement, blocks, tiling, etc. Brick will travel on four per cent. grade around single or reverse curves, rapidly and safely, doing the work of from four to six "wheelers" and in less time.

**GRAVITY SPIRALS, CHUTES AND AUTOMATIC ELEVATORS**—For use with gravity carriers in lowering or elevating articles from floor to floor in factory or warehouse.

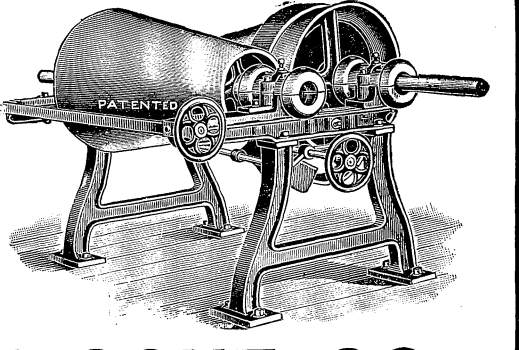
# VARIABLE SPEED COUNTERSHAFT



## INCREASE YOUR OUTPUT from 20 to 60 Per Cent.

THOUSANDS HAVE FOUND THAT THIS CAN BE DONE BY USING THE EVANS VARIABLE SPEED COUNTER-SHAFT. THEY CAN BE APPLIED TO ANY MACHINE WHERE VARIABLE SPEED IS NEEDED OR DESIRED, AND WILL VARY THE SPEED INSTANTLY, GRADUALLY AND QUIETLY, WITHOUT STOPPING THE MACHINE, BY SIMPLY PULLING A CORD.

THEY CAN ALSO BE USED AS A CLUTCH, TAKING THE PLACE OF A TIGHT AND LOOSE PULLEY. THERE IS NO OTHER SPEED DEVICE ON THE MARKET SO SIMPLE, RELIABLE AND EFFECTIVE. 11,000 SETS ARE NOW GIVING SATISFACTION.

# The Canton Crane and Hoist

**The Handiest Tool in the Shop.**

**MAKES ONE MAN EQUAL TO TWENTY**

It will swing a piece into place on a machine, or move it from one end of the shop to the other, quicker than you can get men enough together to lift it. Saves men's time and machines' time, enough in a month to pay for it. Will do more than any other crane because it is heavier and stronger; has steel loading chain instead of the ordinary kind, and roller bearing wheels. We designed it for our own work, and are passing a good thing along.

**Bear in Mind** — That the extra value doesn't cost you more, but less; we don't have to make a living out of cranes.

**You Don't Need to Take Chances; Try it First at Our Risk**

We also manufacture Alligator Shears, Turntables. Grey Iron Castings. Builders' and Machinery Castings a Specialty.
